

README

This week we will talk about how to do Econometrics in R. You will notice that I'm guiding you through the building blocks of an empirical thesis or empirical paper: summary statistics table, figures, regressions, tables. Please start with the slides and then move on to the lab session.

Slides are:

--IntroR_Metrics.pdf

Lab session:

--IntroR_Metrics.R

The Opencast files are:

--IntroR_Metrics_1.webm to IntroR_Metrics_3.webm (approx.. 45 minutes)

--IntroR_Metrics_Lab1.webm to IntroR_Metrics_Lab4.webm (approx.. 44 minutes)

Problem set:

--No problem set!
